MENTOR SPOTLIGHT

Asya Popili, mentor

Business Development Specialist
Miyoshi America

“ I am thankful for such a great experience of being a mentor in the NYSCC's Mentorship program. This program allowed me to look back and remember how far I've come and reached my career goals that once thought to be unreachable.

It feels incredibly honoring to be able to share my experiences, give advice that have helped me in my career path, and exchange knowledge with someone who is looking to join our exciting and full of opportunities industry. This program is an excellent way for both mentor and mentee to learn from each other, make new friendships and professional connections, which will allow to grow in the beauty industry. ”

you to see the hope inside yourself.**
