

SUPPLIERS' DAY 2021

MAY 4-5, 2021
JACOB K. JAVITS CONVENTION CENTER
NEW YORK CITY

JUST THE FACTS:

Even through a global pandemic, NYSCC's Programs and, in particular, Suppliers' Day are proving to be the most important conferences, webinars, and trade events on the industry calendar for the US marketplace. Suppliers' Day in NYC has emerged as the dominant, and only, annual expo in North America: attracting thousands of the leading beauty and personal care players while showcasing the latest innovations and educational programming coupled with unmatched networking. Remaining in NYC for 2021 and beyond, the capital of the global health, beauty and fashion industry sectors, solidifies Suppliers' Day's reach and expands its international presence as we create a blended environment that will connect buyers and sellers live and virtually across the globe.
